

# FOCUSED ON FASHION

Warehousing, Transportation  
and Canada-Wide Distribution

Remco has earned its place as Canada's leader in the warehousing, transportation and Canada-wide distribution for the fashion industry. Serving the wide ranging needs of international and Canadian fashion producers and retailers is our core strength.

Our team is knowledgeable, flexible and efficient. Our fashion expertise allows us to make our customers' lives easier. We have a depth of understanding that allows us to get the job done right, quickly and consistently!

We encourage customers to visit our facilities and see first hand the comprehensive breadth of service we provide the industry. From de-stuffing containers to LTL and truckload transport; to the specialized warehousing and distribution of garment on hangers (GOH), we pick it, pack it, scan it, hang it, size it, label it, receive it, ship it, clean it, steam it, sew it, fold it, truck it, track it and never ignore it... even when we store it!

If it can be done, Remco does; even our carrier partners have been specially trained to extend our reach throughout North America.

Available services for your fashion needs:

- LTL Transportation
- Truckload Service
- Warehousing & Distribution
- North American Freight Management
- E-commerce

# Choose Remco as your supply chain partner across Canada!

## LTL

From high fashion garments on hangers (GOH) to any manner of retail consumer products, Remco will provide coast to coast transportation with accurate, on-time shipping from your warehouse, distribution centre, port of entry (port, train yard, airport) directly to the final destination.

Our customers' requirements have us delivering to retail stores and outlet malls throughout Canada. We can assure safe, secure and expedited service with time-definite arrivals for retail chains, importers, transport consultants, freight forwarders, manufacturers, wholesalers, liquidators and customs brokers.

## Truckload

A high percentage of our customers' transportation requirements include truckload service. We move significant volumes between Ontario and Quebec centres with our Remco fleet. This applies to both fashion and consumer products and are typically delivered on an overnight basis.

Due to high customer demand, we have expanded our truckload offerings to the balance of Canada and the USA. The Western provinces and California being the highest traffic lanes.

## Warehousing

With over 550,000 square feet of electronically secured distribution space in our Montreal, Toronto and Vancouver facilities, you gain access to modern and efficient warehousing equipped with the processes and procedures necessary to pick, pack, process and distribute your products across Canada.

Our highly experienced warehouse personnel are equipped with the latest in scanning automation, increasing the efficiency and accuracy of all processing done on site.

## North American Freight Management

Regardless of the commodity, size, weight or timing involved, if you have a North American transportation requirement, we have the resources to get it done.

Our key focus is to serve the additional transportation requirements of our existing customer base. By adding convenience and a single source solution, we can use our expertise to create additional value for our customers.
